INTRODUCTION

In starting our 17th year of business, we find it necessary to have printed a listing of our Plant Materials and accessories for your garden needs. Although we will have, from time to time, desirable materials that are not listed, we hope that this little booklet will help you with your selections.

In addition to your plant needs, we will have ready this Spring what we believe to be New England's finest and most complete garden shop, "The Village Green". We invite you to stop in and look around. The many items of tools, lawn and terrace furnishings, insecticides, fertilizers and seeds are too numerous to catalog. Yet, we believe, the completeness of our new shop will satisfy your requests.

We are conveniently located between Beverly and Essex on what is still Route 128, a pleasant ride from greater Boston and all parts of the North Shore. We are offering a complete landscape service supplemented with the sales of materials that we hope fulfills your requirements. At your convenience, please stop in for what we think will be a pleasant visit.

EVERGREENS

There are very few plantings that are effective without the use of Evergreens. They are needed to have the desired effect in a grouping of material for landscaping. This can also be said of the Broad-Leaved Evergreens and, in addition to the lovely year-round foliage, one gets coloring from the many varieties that afford an abundance of blooms.

"The Village Green Garden Center"

Old Newbury

A type of fence adaptable to most front and back yards. Easy to install — long lasting. It not only adds to your garden but gives you that needed privacy in small areas.

Available in 3', 4', 5' and 6½' sizes. Gates to match with hand wrought hardware.

Hamilton

A much needed styling of Post and Rail fence for modern as well as colonial homes. Its ruggedness, plus its cleancut lines, add a great deal to the landscaping effect.

Available in 2 or 3 rail, painted or stained with gates to match.

Beverly

A fence scaled to a small home. Same rugged posts but smaller rails for a more pleasing effect. Very easy to install.

Also available in 2 or 3 rails, painted or stained with gates to match.

Camden

The simplicity of this fence warrants its use around the average home. It also is a protection for your gardens, lawns and out-door living areas. It gives you that needed privacy.

This is available in 3', 4', 5' and 6½' sizes. Gates to match with hand wrought hardware.

We own the best and latest design in tree moving
equipment. We have had more than 20 years' experience
in moving large trees and are more than glad to quote
prices on the moving of them.

In the Fall it is Holland Bulbs, so remember our
name and order from same.

MOVING LARGE TREES

Large specimen trees may be moved with safety at
almost any time of the year. The modern method of
digging with a large ball of earth on the roots ensures
the continuous flow of sap through the fine feeding roots.
Trees handled in this manner usually continue to grow
without any check and make immediate landscape effects.
They may be planted with our special tree moving equip-
ment even when the ground is frozen in the winter. If
arranged for earlier this is an economical time.

GIFT CERTIFICATES

We are prepared to issue Gift Certificates, redeemable by us. This certificate will bear the recipient's name and yours as donor. For anyone interested in a garden or planting the home grounds this makes a very acceptable Christmas or Anniversary gift.
